

Deluxe34 L

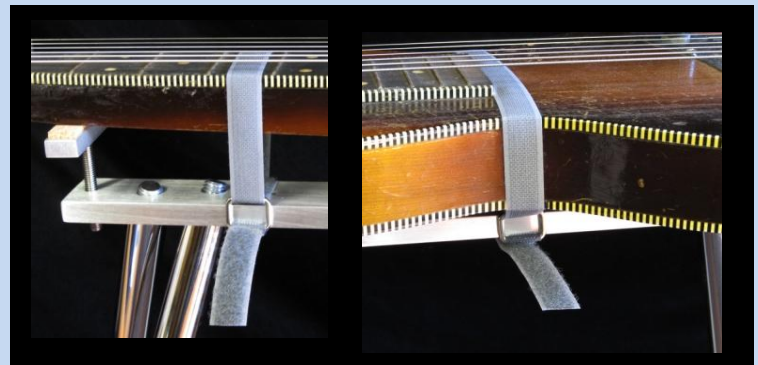

lariat4 lap steel stand

The Deluxe34 Lariat lap steel stand has flat brackets for both the neck and bout. These brackets will accommodate most single neck lap steels. The 3" wide neck bracket is height adjustable. The 6" bout bracket is wide enough for any steel that I have come across. The Lariat comes with two Lariats to keep your steel centered on the most secure stand available. I find one strap at the 12th fret is more than enough to hold down my steel.

The brackets are mounted on a 1-1/4" wide aluminum base.

Two Lariats are provided if you want to use one on the bout and one on the neck.

The Deluxe34 L4 stand comes with a black, 400 denier pack cloth carrying case and 4 leg chrome on steel legs. The brackets are faced with 1/8" cork pad to make a soft and firm surface to cradle your steel guitar. The three leg L3 weighs 9lbs and the four leg L4 weighs 11lbs.

L3 \$160.00

L4 \$190.00
